

Mission

To build an effective, coordinated system for preparing, supporting, and recognizing the early childhood care and education workforce in order to provide high quality programs for young children and their families.

Purpose

All areas of Nebraska are served by Early Learning Connection Regional Partnerships working to support professional development for early childhood caregivers/teachers in inclusive home, center, and school-based programs.

These partnerships work collaboratively to achieve high quality, affordable, accessible training for all those who work with young children and their families.

The Early Learning Connection Partnerships are supported by the NDE offices of Early Childhood, Special Education, the Head Start State Collaboration Office and the Early Childhood Training Center.

Grant awards support a full-time, paid coordinator in each area to provide leadership in maintaining and expanding existing partnerships to continue to improve the availability and quality training.

For more information about the Nebraska Early Learning Connection Regional Partnerships, contact:

Terry Rohren
Nebraska Department of Education
Early Childhood Training Center
