

Oh, Baby!

RealCare™ Baby makes it possible for people to practice caring for an infant 24 hours a day, seven days a week.

- ☞ Baby cries for care at all hours, day and night.
- ☞ Caregiver determines what Baby needs: feeding, burping, rocking, diapering.
- ☞ Unique wireless ID to ensure accountability.
- ☞ Baby's computer tracks its care and safe handling.
- ☞ Detailed assessment data is downloaded post-simulation.

New with RealCare™ Baby 3

- ☞ Data is recorded when clothing is changed and which clothing articles Baby is wearing.
- ☞ Baby records surrounding temperature and reports when temperature varies from safe zone.
- ☞ Baby now detects how long it has been sitting unattended in a car seat.
- ☞ Babies are programmed with RealCare™ Control Center Software, which includes an XStick Wireless Communication Adapter and downloaded software.

ESU #1 Checkout Details

- ☞ Ten simulators are available through check out.
- ☞ To ensure all participating districts are familiar with ESU #1 guidelines, please review the attached documents, including the following:
 - District Information and Letter of Agreement
 - RealCare™ Baby Parent/Guardian Permission Form
 - RealCare™ Baby Participant Contract
 - RealCare™ Baby Safety Precautions and
 - Checklist for RealCare™ Baby simulator

Important: Due to the cost of the RealCare™ Baby simulators, all participating districts are required to sign the District Information and Guidelines document. Both district administrator and participating staff (for example, FCS teacher) will sign the document. Once the signed document is on file at ESU #1 and a check out schedule has been arranged with Jaimi Nicholson, districts can make arrangements to pick up babies at ESU #1.

Jaimi Nicholson's contact information is jnicholson@esu1.org or (402) 287-2061. **Please contact Jaimi with any questions.**

Please note: Districts will need to sign the District Information and Letter of Agreement document annually.
